Explanatory Memo on the Dist Budgets of the Mysore and Hassan Dists for 1915-16.

Agreeably to the Rules in the Chief Commissioner's Notification No: 110 dated the 4th July 14, it was intended to give effect to Rule I from the 1st of Sept last, but owing to some difficulty in obtaining respectable and intelligent Inamdars and Proprietors the Committees were directed to assemble on the 10th and 15th October 14 in the Hassan and Mysore Dists respectively — Most of the Native members (Proprietors of Lands), selected under Rule I did not attend on the day fixed for the meeting previous intimation was given to them, and as this was not consistent with the District — Committee Rules the special object of which is to afford every opportunity to selected and respectable non-Official persons to discuss the question connected with the Administration of Local Funds.

The Proceedings were returned to the Dy Commr Mysore in order to convene another meeting and allow all the members of the Committee to give their votes:—

The Proceedings of the Hassan Dist Committee

Head also to be returned with certain remarks an Assistant at the Head Quarter. under Rule 1 was wanting to complete the Strength of the Committee.-

After some further correspondence and enquiry the Proceedings of the Committee in both the Districts together with Letters Nos: and dates as per margin, and the Budget Estimates for the ensuing Official year 1875-76 were received on the marginally noted dates and are herewith submitted for the favorable consideration and sanction of the Govt Govt.

The Committee in the Mysore Dist Consists of.

1 The Dy: Commissioner as President.

2. Asst Commr in the Dist Head Quarter Mysore, Mr Krishna Murti.

3 Asst Commr in charge of the Hoonsoor Sub Division, Mr Sreenivas Rao.

4 The Ex: Engineer. R. & Dobbs Esqr.

5 The Amildars of the several Talooks in the Mysore Dist.

6 Inamdar Hongal Shrinivas Rao.

7 Six Proprietors.

It will be seen from Form N. Part A. that the total amount of the estimate Receipts of Local Fund in the Mysore Dist for the year 1875-76 is Rs. 38,014 —-—"

The particulars are as follow..

Local cess of ———	Rs
1/2 Anna ———	34,479 -"-
Deduct 24 P. C. on ac	
count of education ———	8275 -"-
Balance ———	26204 -"-
Ferry Collections ———	582
Cattle Fines & ca: ———	8224
Mis: Receipts ———	300 4
Total ———	38,014 -"-

X 20 Gudis Estimate 4 31,530

Adding to this the probable Balance which will remain on hand at the close of the current Offl. year (Rs: 250 + 5), the estimated total of available Funds for 1875-76 is Rs: 63059

No Rs 56,575

As the Annual Receipts are not sufficient to meet the outlay on the several important projects, which it is proposed by the Committee to undertake in 1875/76, the whole of this amount has been allotted in the manner below mentioned.-

In Original works ——— Rs:	28,890
Repairs ———	19720
Establishment ———	1334 9
Tools and Plants ———	1100
Total Rs:	63059

Original Communication

Part IV

Buildings

Under this head, the Committee propose to construct Chuttrums at the marginally noted places

1 Chuttra at Bannoor
2 " " Hoonsoor
3 " " Periapatam
4 " " Baigoor
5 " "

places at a cost of Rs: 1200 each

These buildings are no doubt needed and will be of great use to travellers &c., but some Establishment will be necessary to look after and Keep them in good order, and this point does not appear to have received the consideration of the Committee but will be referred to when the Estimates are submitted. —

To meet works not provided for in the Budget a sum of Rs. 1100 is provided for. —

Communications

Two works which will remain in complete on the 31st of March 75 are provided for. The particulars are as follow. —

1 Road from Kanjangode to Karaikoor.
2 Do: From Cowlandi to Sauli Marakully

The Road from Kanjangode to Karaikoor, for which an Estimate amounting to Rs: 6663½ was sanctioned by the Chief Commissioner in Acts: 1874 is progressing and will be completed by the end of the next Official year. —

The Expenditure computed up to the end of March 1875 being Rs: 3000, the other half namely Rs: 3000 minus 6631/2 will be spent during the ensuing year. —

The improvement of the Road from Cowlandi to Sauli Marakully for which

which an Estimate amounting to Rs. 14850 was sanctioned by the Chief Commissioner in 1873 last, is being carried out, a sum of Rs: 3000 is likely to be spent by the end of March 1875, and a similar sum during the ensuing official year.

X might be increased if funds be to hand

Road from Chamrajnagaur to Sandi Mar tully. –

A sum of Rs: 2000 was provided for in the Budget for 1874.75, of this only Rs 1200 may be spent by the end of March on the undisputed portion of this Road regarding which the authority of the Chief Commr. was lately obtained. –

X may not be spent

The project will if possible be inspected by me and reported on as directed in Secy's letter No: dated

In the mean time provision is made in the Budget for Rs: 2000 which may be spent during the ensuing Agl. year. –

Improving the Road from Goondal to Chamrajnagaur.

As the appropriation made in 1874.75 (Rs: 2000) was not worked out for want of a regular Estimate, the project will be put in hand in 1875.76 the necessary provision is made in the Budget now sent. –

X No Estimate received

The new projects entered in the Budget are

1 Road from Santamarhully to Narsipoor via Moogoor – Rs — 2000. –

Note

2. Road from Lingraja Cutter ____ Rs
to French Rocks ____ 2000

2 Road from Hoonsoor to Yedatore ——— Rs: 3000

4 Mysore to Bulmarui ——— 6.00

Reserve ——— 22 00

Rs: ——— 9800

The Committee consider these projects useful and Estimates are expected shortly.—

As already reported in my letter No: dated I intend if possible going to Chamrajnuggur when the first project will be inspected.—

The other three roads are all useful Communications.—

To meet unforeseen works and others not provided for in the Budget now sent, provision is made for a sum of Rs. 22 00 which will suffice for the purpose

Mis: 1°. Improvements.—

Under this head it is proposed to construct 2 Public wells, one at Poonjoor and the other at Antersuntey for the use of travellers I believe that the utility of these is questionable.—

The Committee further propose to improve some of the existing wells.—

The President concurring in some of these has made provision for Rs 440 under the head "Reserve"— These will be examined in detail when submitting Estimates for Sanction.—

Repairs Part V

Under the head Repairs Rs 950 are provided for on account of the repairs to 3d Class Travellers Bungalows and Rs: 300 to meet emergent and unforseen works.—

Rs: 174 10 are provided for on account of the annual maintenance of the several lines of Roads, the total length of which is 337 miles, and Rs: 1060 under the head Imo ps: Improvements making a total of Rs: 19,720.

Should be under Reserve Com-munications

It will be seen from a Com-parison with the Budget for 1874-75 that several new roads which were made by the Ryots and require maintenance allowance for their up-keep, are provided for in the Budget now sent, for 1875-76. The Dy Comm[r] Nuggoe (Major Hill) and several of the Amildars in the Dist[t] have taken great interest in the matter and many important cross roads have been opened by ryots without any expense to Gov[t].— The work has been in most cases, cheerfully done and the benefits derived from it are admitted by the Ryots. This subject will be more fully reported on hereafter in the Administration Report of the year.—

If Repairs of Ryots' roads are to be debited against Budget Grant they ought to be relieved of Imposts

The Committee observe that the roads

from Mysore to Nanjoddy and from Maddoor to Sivasamoodrum which were transferred from the Dr. W. to the Revenue authorities, cannot be maintained out of Dist: Fund, which in its present state is hardly adequate even to meet the ordinary requirement of the Dist.

The amount required annually for the maintenance of these two Roads is Rs: 1525 on account of the Maddoor Sivasamoodra road. — Rs: 6800, Rs 5355 on acct of the Mysore Nanjoddy road &

Of these amounts be appropriated out of the receipts of the Talooks in which the roads are situated, there will be little or no balance to meet the 1/3 of the annual repairs to the other roads in them. —

The retransfer of these roads is therefore Commuta and already been the subject of correspondence. —

Under this head provision is made by the Committee for increasing the salary of the Office Clerk from Rs: 50 to 60, also for two Lascars for the 2 Surveyors attached to the Dist, and for 11 peons at the rate of one in each Talook in the Mysore Dist. —

The pay allowed at present for the Office clerks in the Dy: Commrs Office and that of the Commr being only Rs: 50, it is difficult to procure the services of qualified and experienced men on even a small salary.

The work performed by these clerks is as laborious

They are neither of them Mysore road: in the which by the if under Commr the Commr engaged by and in the Nanjoda

used by the

Part of Item

50 Rs quit enough in the class of clerk needed

& necessary

£ 77

a mistake in amount

as that in the D.P.W. – It is therefore desirable that the pay of this class should be raised

The necessity for the Lascars for the Dist Surveyors has already been fully reported on and the sanction of the Chief Commr. obtained regarding their appointment. –

The question in connection with peons in each Taluk demands early attention. – Since the separation of the Police from the Amildars, considerable difficulty is experienced by the latter in attending promptly to the requisitions connected with Dist. Fund Roads, Avenues &c.:

The Dist. Commissioner in his letter No: dated has suggested that the pay of peons employed in different Depts. should be charged to the same. – This has met with the approval of the Chief Commr. – Under these circumstances the appointment of a peon in each Taluk is urgently needed, and will, I trust, meet with the sanction of the Chief Commr.

For tools and plants a sum of Rs: 1100 is provided for

For Educational Dept. a sum of Rs: 8275 has been allotted at 24 per cent

Under the head Sanitation, provis-

Part VII

Part VIII

Part IX

is made by the Committee for a sum of Rs. 3,20 to meet the cost of medicine and the pay (which varies from Rs. 15 to 20) of Native Doctors to be employed in the Hd. Quarters of each Talook.-

Medical assistance is much required in feverish and sickly places situated at a distance from the Civil Dispensaries and Hospitals.- I have not much confidence in the proposals for Entertainment of Native Doctors which however seems popular with the members of the Committee

The Committee in the Hassan Dist. Consists of

1 Dy: Commr President.-

2. Asst Commr at the Hd Quarters (Captain Blair)

3. Asst Commr, Mr. Srinivas Iyengar

4 Dr. Mr. Muhammad Pillai (now transferred to the Mysore

5. Asst Engr, Lingam Esqr

6 The Amildars of the several Talooks in the Hassan Dist.

7 Inamdar Sreenivas Rao

8 6 Proprietors
2 Planters
4 Natives

The total amount of estimated receipts of Local Fund in the Hassan Dist. for

Rs. a year 1875. is Rs. 41783 as particularized below.-

	Rs.
Local Cess of half anna	3612 2
Deduct 24 per ct. on ct. Edn:	866 9
Balance Rs:	27453
Ferry Collection	2108
Cattle fines and Sale proceeds	12181
Mis: Receipts	40
Total Rs:	41782

To this has to be added a sum of Rs. 5872 which will remain in hands at the close of the current Official yr 1874-75.

The Committee propose to spend Rs: 62,259 in the ensuing offl. year under the following heads.-

Original works	26767
Repairs	26539
Establishment	8162
Tools and plants	8000
Total Rs:	62,259

Original works

The first two items in part IV are incomplete works one the Doshangy Ghaut Road and the other a Bridge over the Nagri Gulla Stream.-

For the former a sum of Rs. 2000 was entered in the Budget for 1874-75 this is however not likely to be utilized before the end of March 1875.

Provision is therefore made in the Budget for 1875-6 for Rs: 7000 which it is intended to spend on the 2d Section of the Cochanyy Bangalore Road and on the continuation of the same to the Bisley Ghaut near Colonel Bagshawe's Estate as reported in my Letter No: 732 dated 12th Feby: last to the address of the Secy: Govt. N.

The other work was not put in hand in 1874-75 although a sum of Rs: 1500 was provided for in the Budget This is owing to the estimate forwarded to the Exec. Engr. Hassan Range not having been returned in time.—

Arrangements are however made to carry out this work in the ensuing Official year

The new works proposed by the Committee for 1875-76 are

Buildings

Moorsapur Khana at	Rs.
Madihully Hassan Taluk	575
Do: Do: Collum	1000
Dispensary at Cuttlepore	2000
Total Rs:	3575

Communications

Tracing a new road from the 136: mile on the Bangalore-Mangalore Road to join the Anamahal Moodgeri Road via

— via Sadsoolgay Nowsay and Goodicaul Rs 1000

2 — Constructing a Bridle path 12 miles of 22 miles from Hanabal to Kottagher — Rs — 2000

3 Nurroor to Buria Rs: — 1000

4 Allicoopa to Mallecota — Rs — 1000

5 Noojeedully to Tiptoor — Rs — 1000

6 Altering the Road from Marma hully to Hadmanay — Rs 450

7 Embankments on the Roads from Kerla pur to Beswapatam — Rs — 250

8 Chinnyapatam to Bargor — Rs — 150

9 Two Aqueducts over Channels — Rs — 217

The first work is one advocated by the Coffee Planters &c. and seconded by Mr. Lynam, Asst. Engineer — It opens a large tract of rice producing country at present inaccessible to carts.—

The 2d work was proposed by Mr. Lynam — It is of great value to the Coffee Planters and roots of the neighbourhood. —

The 3d was originally proposed by Major Hill, it connects Arkulgode with the Hassan Mysore line at Buria

The line from Arkulgode to Nurroor was opened out by the roots 4 years ago and is kept in good order, but the portion from Nurroor to Buria through which

which the Hassan Mysore Road passes requires some improvements although earthwork &c. were performed by the Ryots.—

The Estimate is under preparation

No: 4

The Road from Alicoopa to Maikolla has already been opened by ryots and is in good order generally except in some places where embankments tunnels &c. are required.— It is now proposed by the Committee to carry out these works in 1875. 76.—

No: 5

The distance from Nooyelady to Tiptoor is 17 miles of which 10 miles are in the Hassan Dist. The ordinary work viz, Earthwork side channels &c. has already been undertaken by Ryots.— For tunnels gravelling &c. a sum of Rs. 1000 is now provided.—

No: 6

This road (6 1/4 miles) ——— was constructed 12 years ago at an outlay of Rs. 2100 It is now out of order and requires thorough repairs as well as altering the Course for a mile or so. Provision is made for a sum of Rs. 450 to meet the above requirements.—

No: 7

This line has already been opened by the ryots. But some improvement

necessary out of Local fund.—

It Connects the Salig[illegible] Bisnagar Tiptur Road.—

No: 8

This work has been finished by the Ryots but in some parts bunds & ca are required. Provision is made for this.—

9

This item does not call for any remark.

The projects of constructing Mooseafunkhana at Nadikully and Polium Hafsan Talook were originally proposed by the Amildar and are accordingly entered, but further inquiry will be made regarding the necessity for them before submitting Estimates for sanction

The construction of a dispensary at Sukles-pur is I believe principally urged by the Coffee Planters.— The President has accordingly provided a sum of Rs: 2000 for the purpose.—

A sum of Rs 1628 is provided for on acco. of avenues and Rs: 3863 on account of the construction of a few cattle Pounds and sinking wells under the head Mis: P. Improvemen

Part V Repairs

Under the head Repairs, provision is made for the maintenance of 384 miles includ-ing the 25 miles which were constructed in 1874/75 and require up-keep.—

There are one or two points requiring remarks.—

The Road from Hafsan to Tiptoor via

Dooda frequently gets out of order on account of the large traffic, carried on it.- It is therefore proposed to raise the maintenance allowance from Rs: 50 to Rs: 100 per mile.-

The Roads from Kapaan towards Kalee kede (10 miles) Chengada Cully to Kolingy (3 miles) Basrapatam to Saligram (6 miles) Maranna Cully to Kadmanay (6 miles) have all been completed, but require maintenance, allowance for which provision is made in the Budget now submitted.-

Rs: 500 are allowed for Repairs of the Rest Houses at Kassan, Manzerabad and Cheenrayapatam, and Rs: 450 on account of Repairs to 3d & 6 class Tra: Bungalows at Gundasy, Chinkoorly, Kaykery and Nagamangala.

Provision is also made for a sum of Rs: 1470 on account of road side wells

The other items do not call for any remarks.-

In consequence of the heavy work devolving on office clerks the Committee propose to increase their pay from Rs: 50 to Rs: 75. I concur in this and would refer to the remarks made for the Mysore Dist.

The entertainment of 2 Lascars for the Dist. Surveyors and 10 peons at the rate of 1 for each Talook is absolutely necessary

but the necessity for a peon to the Paramount Depn. in the Agy: Commrs. Office - seems to me doubtful. –

Part VII
Tools and Plants

Rs: 800 are provided for our account of Tools furniture &ca.

Part VIII
Edn:

Rs: 866 are allotted to educational Depn. being 24 per cent of Local cess. –

Part X

The Committee propose to appoint a clerk on Rs: 20 per mensem. – They also desire to give an allowance of Rs: 10 to the Revenue Recordkeeper, to enable him to assist the Committee in disposal of Canarese work. Sanction to these proposals might possibly be deferred till the necessity for them was proved by trial. –

Detailed Estimate of Miscellaneous Expenditure from the District fund of the Mysore District for the year 1875-76

	Rate of Pay
District Committee Officer Establishment	

Deputy Commissioner
Mysore District

Hon. Sec -

I have read and

I think may go on to the Co-Opn.
a letter to the Public briefly covering the
proposals - The Chief Inspector's Report
to remark on the question of the Expenditure
on the Incumbered, & Sir A Hamond
Roads - refer to my former remarks and
point them by asking a decision -
2. With regard to Eyot Road - Inspr Hicks
Special Report on them shd be sent
up with this - Briefly draw attention to
the No: of Eyot Roads now in existence
giving Roads & Mileage - and Explain the
total provision proposed to be made on
this Budget for their improvement & upkeep.
Education - Draw attention to the remarks
of the Public observing that I think some
arrangement shd be made for the
Education Dept. directly co-operating
with the Parish on the matter of
Schools -
I am not much confident on the
proposals of for the Employment of
Local Doctors -

RHH

9.1.95

Explanatory Memo on the District Fund Budget for 1875-76 framed with reference to the Resolutions of the Committee dated 15th October and 18th December/75

The Committee propose that the expenditure of the ensuing year should be destributed as follows.

Original Works	28,890
Repairs	19,720
Establishmant	9,065
Tools and Plank	1,100
Sanitation	4,284
	63,059
Probable Balance available for 1876-77	14,000
Total	77,059

Original Works

Buildings

Under this head provision is made for the construction of 5 Chattrums as decided by the Committee in their proceedings. Rs: 1200 being allowed for each.

Communications

Under this head, there are 5 projects for

for which sums from the balance in hand have been allotted. The District Surveyor has been employed for the last year in getting up projects for the Ranjangud-Narsipur, the Kowlandi-Santemarahalli and the Chamrajnagar-Santemarahalli roads. The Estimates and plans for the former two works were sanctioned and are now in hand. The Estimate for the latter work is nearly completed and it is hoped that the Santemarahalli-Narsipur road project may also be prepared by him before the end of the Official-Year. The Assistant Surveyor has completed the project for the alterations on the Gundlupet-Chamrajnagar road the submission of which has been deferred owing to further data regarding the river below the Goondelu Sauk being needed by the District Engineer. It is expected that the Assistant Surveyor will be able to complete the simple projects needed for the French Rocks-Lingarajchuttra, the

Nunsur

Hunsur - Gedatore and the Mysore - Bala
- mure roads in turn -

The Committee agreed to place under this head Rs. 200 at the disposal of each Amildar as reserve.

The other roads made by the ryots do not require any improvement - The sums as now modified by the Committee will be spent on their up-keep as shewn in part V

Miscellaneous Public Improvements.

Wells have been voted for by the Committee at Poonjoor and Antersunte both on that roads where good water is a desidaratum.

Repairs

Buildings

The number of 3d Class Travellers Bunga
- lows and Musafirkanahs has been increased from 16 to 19 owing to the con
- struction of a bungalow at Chamrajnaga and two Musafirkanahs at Attigulipur and Hanamanthrayenpuri in the Chamrajnagar and Gundlupet Talukas respectively

respectively. Provision for their repairs at the rate of 50 Rs. for each Bungalow has been made. A sum of Rs. 300 has also been provided under this head as a reserve grant for minor repairs. This amount has been distributed at the rate of 30 Rs. for those in the Mysore Taluk and Rs. 27 for the rest.

Communications

Under this head no maintenance allowance for the Mysore Manandoddy and Nandeir Sivanasamudrum roads is provided in the Budget as they are properly high roads leading to other Districts which should be maintained from Imperial funds and the income of the Taluks thro' which they pass is insufficient to meet the charge vide the last proceedings of the Board and Deputy Commissioner's letter No. 895 of the 7th December 74. The maintenance allowance of the first 16 Miles of the Mysore Talkad road and the first 11 Miles of the Goondlp. Chamrajnagar road has been increased from

from 30 to 50 Rs on account of the heavy traf-
=fic and bad soil; the remainder is left at
Rs 30. In the same manner and for the
same reasons the maintenance allowance
for the road from Periyapatna towards
Ramnathpur as far as the boundary
of the Hagoan District has been increased
from Rs 30 to 50. On the other hand the
allowance of Rs 100 for each mile of the
Jeluvale Narsipur road having been found
to be excessive, it has been reduced to 50 Rs.
The ryots of Jedatoré having extended
the Jedatoré-Choonchinkatté road a
distance of 4 miles to join the high road
from Mysore to Narsipur, the mainte-
=nance allowance of Rs 360 has been
increased to 480 to include the repair of
this portion. The maintenance allowance
of Rs 80 for each mile for the Malvalli
Kankanhalli road having also been
found too high it has been reduced to Rs 50.
Provision for the up-keep of the chief
ryot made roads is made at the rate

of

Rs. 50 and Rs 30 per mile according to the traffic on them but Rs 100 per mile is allowed for the Seringapatam Bunnur road on account of the heavy traffic and because it passes nearly the whole length thro' the irrigated land under the Chick Davaroy channel. The committee decided on this expenditure vide their resolution of the last meeting.

A sum of Rs 100, at the rate of 100 Rs for each Taluk has also been provided under this head reserve for minor repairs.

Miscellaneous Public Improvements

The improvement of 5 wells have been decided upon by the committee at their two meetings. Provision for them is duly made.

Establishment

Provision under this head has been made just as last year; Save an increase of Rs 10 which is made to the pay of the District Head Clerk as decided upon by the Committee as he has done ten years approved service

in

in that post. The wages of two Lascars for the District Surveyor and 1 Peon for each Taluk Maistry at Rs. 5 each is also provided as agreed to by the Board.

Tools and Plant

As there are several roads to be dealt with a sum of Rs. 1,100 has been provided under this head at the rate of 100 Rs. for each Taluk.-

Part IX

Sanitation

It is proposed to provide Rs. 3,120 under this head at the rate of 252 per Taluk. This will admit of a Native doctor on Rs. 15 and Rs. 6 for medicine being provided for each Taluk and also at Madura and Periyapatna. It is hoped that eventually Dispensaries will be opened at Ranjangud and Seerungapatam and at Nunsur a Civil dispensary may be opened under the Apothecary incharge of the Amrut Mahal department.

Dy. Commissioner Br. 28

B.

Statement shewing the original works approved of by the Superintendent of the Local Fund Committee held on the 10th October 1874, for the year 1875/76.

No	Taluk	Particulars	Amount of Estimate	Appropriation for 1875/76	Remarks.
1	Hassan	Constructing a Moosafer-Khana at Inadichully	575	575	As the distance between Hassan and Belur is 24 miles, it is necessary to build a Moosafer Khana at Inadichully
2	Do	Planting and improving Avenues	310	310	Agreeably to the Chief Commissioner's Circular No 161 dated 18 August 1874
3	Do	Constructing Cattle pounds	300	300	As this amount is to be met annually from the District fund, it has been entered.
4	Mangalore	Dispensary at Kadilipur	2000	2000	The want of a Dispensary here is very much felt by the Planters and ryots.
5	Do	Altering trace and cutting a mile of new road from Inamhully to Cadamenay		650	
6	Do	Tracing a new road from the 136th mile-Stone on the main Bangalore-Mangalore road and running via the villages of Kalsooliy Kone and Konikeda and effecting a junction with the Sreemahal Moody-Shere road near Obichully	1000	1000	To open a large tract of rice producing Country, which at present inaccessible to carts.

7	do	Constructing a bridle path trace of 22 miles from Hanebal, Keroo pondaletta, by Degoonda and on to Kolle-gehar	2000	2000	To open up the country where there are some valuable coffee estates and Immchepiece lands.
8	do	Second section of the Cochangy-Wonoor road		2000	This project is entered in the sanctioned Budget of 1874/75, and will be put in hand next year
9	do	Constructing a well at Moodagere	399	200	The ryots have agreed to contribute 199 Rs towards the well
10	do	Constructing a well at Sookrawara Sankè	90	45	The ryots have agreed to contribute 45 Rs towards the work.
11	do	Cattle pounds	300	300	Vide No 3.
12	Maharajdroog	Constructing a Mootaffe-Khana at Pollerim	1000	1000	Necessary, as the distance between Hassan and Manjesabad is 24 miles.
13	do	Sinking a well at Malude-vurhally village, Hassan Gonoor road	189	189	Necessary.
14	do	Constructing cattle pounds	300	300	Vide No 3

15	Mahavajdroog	Constructing a bridge over Nayeballa stream in the Katayee Sookravara Sankey road	1,500	1,500	This project has not been put in hand, tho' entered in the sanctioned Budget for 1874/75. It is therefore proposed to undertake the work next year. Much inconvenience is felt owing to the scarcity of water in the fort.
16	Athalgud	Sinking a well in the Cusba of Athalgud	158	158	
17	——— Do ———	Constructing a road from Moroor to Berca.		1000	The ryots have already contributed in labor, the amount entered is for the carrying out of the Government share of work.
18	——— Do ———	Constructing aqueduct over the halla near Hanasoge	150	150	Agreeably to the Chief Commrs Cir: No 352–1793 dated 30th June 1874. Vide No 3
19	——— Do ———	Cattle pounds	300	300	
20	——— Do ———	Embankment &c. on the road to Kelapur, branching from the Bacwapatna Saligram road.	259	259	The ryots have executed their portion, and this is the amount of the Government share
21	Attikuppa	Constructing road from Attikuppa to Melkote	1,000	1,000	The ryots have done their portion and it is essentially necessary to carry out the Government portion.
22	——— Do ———	Cattle pounds	300	300	Vide No 3
23	——— Do ———	Improving avenue trees	288	288	Vide No 2.
24	Belur	Cattle pounds	300	300	Vide No 3.
25	Chamaraj patna	Constructing road from Hosakally to Lefftoor		1000	The ryots have already contributed in labor. this amount, it being the Government share, is entered
26	——— Do ———	Do. Chamaraj patna to Bagoor	160	160	For improving the road, which has been constructed by the ryots
27	——— Do ———	Cattle pounds	300	300	Vide No 3
28	——— Do ———	Sinking a well near Inadoa	271	271	Much needed.
29	Do	Planting and improving Avenues in village	330	330	Vide No 2
30	Nagamangala	Cattle pounds	300	300	Vide No 3
31	Hanchalli	——— Do ———	300	300	Vide No 3
32	——— Do ———	Planting and improving Avenues	300	300	Vide No 2
33	Narsipur	Constructing an aqueduct on the north Channel near Kadavenakote	82	67	The ryots have agreed to contribute 15 Rupees
34	——— Do ———	Planting and improving Avenues	400	400	Vide No 2
35	——— Do ———	Constructing cattle pounds	300	300	Vide No 3

Narsipur	Constructing a bridge of one arch near Dobbs Corner on the Mysore – Hassan Road		1500	This project is entered in the sanctioned Budget for 1874-75, and will be put in hand next year.
	Total		21,152	
	Add Revenue at 10 per cent		2115	
	Grand Total		23,267

provision (viz Rs 2,000) may be made for the establishment of a Dispensary at Sucklespoor in the Manjerabad Talook, as the European planters & Ryots are greatly in need of medical aid.

Carried unanimously.

Moved by the President, and seconded by Mr Lyman, that the road proposed by the planters, to be opened out from the 136th mile stone on the main Bangalore - Mangalore road, and running viâ the villages of Hulsoligay, Horway, Anebetta & Gonibede, and effecting a junction with the Moodgeré - Aémahal road, near Coggihully, be provided for, as it would open up a larger track of a rice producing Country, which is at present inaccessible to Carts; and provision of Rs 1000 should be made for tracing this road.

Carried unanimously.

Proposed by Mr Lyman -

that Rs 2000 should be provided for opening a bridle path trace of 22 miles round from Hanbal Heragondabetta by Dagonda, on to Hotgalias. This road is intended to open up the Country, where there are some valuable Coffee estates and much rice land at present almost inaccessible.

Carried unanimously.

Proposed by V. N. Trimalacharrier, Judicial Assistant Commissioner, that funds be provided for the establishments required for carrying out the Survey work in the District. Seconded by the

the Presidents who proposed the following allowances to the existing Establishments

	Present pay	Proposed allowance
Mahr. Clerk	50-	25-

Grand Total. 70

For 12 Months 840

Carried unanimously

Proposed by the Mudliars of Chemroyapatam and Attikuppa, that a peon on Rs 5 a month be allowed to the Maistry of each Talook in lieu of the Police Peons, who have been withdrawn under recent orders. Seconded by V. R. Tiroomalacharriar Mudr. Assistant Commissioner.

Carried unanimously

Proposed by Mr Lyman [illegible]

~~Assistant~~ Engineer, that a peon be allowed on Rs 5 to the District Surveyor, who has none at present, and is put to much inconvenience in Consequence.

Carried unanimously

Proposed by President that the Charge for the increase in Establishments should be covered by the balance in hands.

Carried unanimously

Proposed by the Amildars that the original works as per appendix B, at a Cost of Rs 23,267, be Carried out, the necessity therefor being shown in the Column of Remarks.

Carried unanimously

Moved by the Amildars of Several Talooks that, agreeably to the Chief Commissioner's Circular — No: 161 of 18th August/74, a sum of Rs 1,628 be allotted for avenues.

Carried unanimously

Moved by the Amildars that, according to the Commissioner's Circular No: 448 of 15th July/72, a sum of Rs 3000 be provided for Cattle pounds.

Carried unanimously

Proposed by the Amildars of Narsipur, Maharajdroog, Arkulgode, Hangerabaid and Belur, that a sum of Rs 350 be provided for the repair of Ferry boats.

Carried unanimously

Proposed by the Amildars of Harnahully,

Harnahulli, Attikuppa, and Hayamangala, that a sum of Rs 450 be provided for the repair of the 3rd Class Bunglows.

Carried unanimously

Proposed by the Amildars of Hassan and Harnahully, that the rate for the Hassan-Tiptoor Road may be raised from Rs 50 to 100 per mile for the ensuing year 1875-76.

Carried unanimously

Proposed by the President that the maintenance allowance for all the other roads entered in the Budget for 1874-75 may be the same in 1875-76

Carried unanimously

Moved by the Amildars of Arkulgode and Harsipur, that agreeably to the Chief Commissioner's No. 352/1793 dated 30th June 1874, a sum of Rs 217 may be provided for the Construction of bridges over Channels Crossing District Fund Roads

Salcaud Nanjasetty ——— Detained by Civil Court

Bukshee Veeraspajea Iyas - Signed the Notice but did not attend the Meeting.

Sowkar Nilgheree Moodumma — Absent from Mysore.

Read letter from the Commissioner Ashtagram Division No. 959 dated Mandur 23d November 1874.

2 With reference thereto the Committee beg

beg to represent that the proposals for building Chuttrums at Ummur, Periya-
patna, Begur and Antersanté emanated respectively from the Amildars of Ashta-
-grama, Periyapatna, Sundikeh and Heggadevancotté and were approved of by the President and Members of the Committee at their last meeting.

3 The Committee recommend that Rs 2000 may also be allotted for these build-
-ings in the current year by a re-appropria-
-tion of the Budget: the amount allotted for constructing drains on the Periyapatna-Bettadpur not being needed: and resolve on fixing the expenditure at Rs 1,200 for each Chuttrum next year.

4 The Amildar of Yedatoré Taluk pro-
-posed the construction of a Chuttrum at Chowchinkutté as the present Chuttrum is not available for the poorer classes. The construction of a chuttrum at Hunsur is proposed by Ahmed Beg. The Committee approved of the suggestions and resolve

that

that due provision be made for them in the Budget. The latter project was not brought forward at the last meeting — owing to the various objections made by the Officers of the Commissariat Department to a Chattrum in the town, but it was pointed out that the numerous travellers visiting Hansur are placed to great hardships for want of such accomodation and a suitable site can be obtained beyond the bridge.

5th The proposals for constructing a well at Ponjoor and Antersanté were made at the last meeting by the Amildars of Chamrajnagar and Yeggadevanepté respectively: and those for improving three wells in the Ranjangud Taluk and one at Lingarajchatter in the Mandya Taluk were made by the Amildars of Ranjangud and Mandya respectively. Vanikul Srinivas Row and the Amildar of the Maddur Taluk proposed that ~~construction of~~ Rs 100 should be given also to the improve-

ment

of a well at Jodes Somanahalli in the Yedatore Taluk which was approved of by the Members of the Committee: but at this meeting they agree with the Pre = sident in thinking that a well is not so much needed at Tonanore where there are two tanks as at Bayand Nuna, where the villagers are very sick apparently from being dependant on a small pond in the jungle for their water. Nanikal Streeniwas Row proposes also a well at Chukoor in the Neggaddenecote; but it is not far from the Kubbany and the matter may in the opinion of the Committee be allowed to stand over till the next meeting to see if the ryots and Vth Jagheerdar will contribute.

6 With reference to the previous proposals with respect to the opening of dispensaries at Nunsur, Seringapatam and Nanjanged and the employment of a native Vth doctor at Periyapatna, Mr Adye and the Head Quarters of other Talaks the Members

Members composing the present meeting are unanimous in considering that Medical relief is urgently required and therefore beg respectfully to press their former proposal on the consideration of the higher authorities. The native doctors may be detached to Villages where there is sickness. At present the number of fatal cases of Malarious fever in the Nanjanud, Nagasamudram, Gundlupet and Periyapatna is appalling. Therefore the full measure of medical relief suggested by the Committee is urgently needed. When the Municipalities can afford to bear the charge they should in the opinion of the ~~Board~~ Committee contribute a moiety.

7 Read remarks of the Commissioner with respect to the administration of the allotment made for education.

8 Proposed by Hanifulla Sreeniwas Rao and seconded by Shaffeer Khan that the views of the Committee as conveyed in their last proceedings may be submitted

to the Chief Commissioner as 24 per cent is nearly 1/4th of this income derivable from the District Fund and it is now, with due deference to previous orders, submitted that the District Committee who possess local experience ought fairly to be allowed to have some voice in the disposal of the fund.

Carried

9 With regard to the Commissioners' remarks on the desirability of debiting the Committee with the pay of peons employed in connection with road repairs, avenues &c., proposed by Hanichal Sreeniwas Row and seconded by Jagingera Bore Gowdah that the Committee respectfully submit that these and like charges — which are of an imperial nature should be borne by Government; that the Committee however express their readiness to allow each Taluk Draistsman one peon and the District Surveyor two Peons: further that the Committee deprecate extra charges being imposed on them for

auditing of accounts &c. as the sums already debited to the District Fund for establishment are very high being as much as 24 per cent. They however consider it only fair that Accountants should be allowed an increase of Rs. 10 per mensem after ten years approved service in their present grade. Lastly the Committee having strict regard to the rule which requires that the money collected in a Taluk should be spent only in that Taluk view with regret their inability in future years to undertake many more much needed improvements, or even to provide Medical attendance in the Malvalli Taluk (Vide their last proceedings). A state of affairs to which they would wish the attention of the Chief Commissioner to be drawn.

Carried -

10 Read also letter from the Commissioner No 967 of the 26th November 1874 with respect to Meteorological observations at Mysore and with reference thereto

the

Committee, the vacancies left for allot-
-ments being filled in with reference to
the above resolutions.

14 An explanatory memo accompanies.

Commissioner's Office

Mundidroog Division

Bangalore 5th April 1875

To

The Secretary to the

Chief Commissioner of

Mysore P. W. D. —

Sir,

I have the honor to forward for the orders of the Chief Commissioner the District Fund Budget for 1875-76 and to report as follows. —

2. The probable assets and the outlay estimated for the several Districts of this Division for the Year 1875-76 are as below. —

Districts.	Assets.	Outlay.
Bangalore	25937	39657
Kolar	50795	44900
Tumkur	66655	54107
Total	143387	138664

3. It will be observed from the above that the estimated outlay for —

the Bangalore District exceeds the assets by Rupees 13720. This sum includes an aggregate extra charge of Rupees 4391 for enlarging and improving certain tunnels and bridges injured during the heavy rains of 1874-75 on the Bangalore Kankankalli and the Bangalore Koonghub via Hagadi roads. The items of the Budget for the Bangalore District have been closely scrutinised in view to the expenditure being brought within the estimated assets, but the several works proposed are of such importance that none of them can well be postponed.—

4. The grounds upon which it has been found necessary to ask for an assignment from Local Funds as a grant in aid of the Bangalore District Local funds are set forth in the Minutes of the Committee held on the 5th November last,

with my letter No. 4[illegible]

The circumstances of the Bangalore Kankankalli road, which have been treated of in the District Fund Committee's proceedings more particularly call for special consideration, for an outlay of Rupees 8740 is needed in the ordinary and extraordinary repairs of this road for the current year 1875-76 alone.—

5. At the time the Committee held its meeting the deficit was estimated at Rupees 12083, but in the present Budget estimate the amount is shewn at Rupees 13720, the increase being the provision required for the improvement and construction of bridges in lieu of those injured on the 37th and 3rd mile of the road from Bangalore to Koonglub via Magadi

6. The other items in the Bangalore District Budget are sufficiently explained in the Proceedings of the Local Fund Committee.—

7. The total estimated outlay of the Budget for the Division is Rupees 138670 under all heads as shewn in part I.

8. The estimate for works under these heads aggregate Rupees 50381— of which Rupees 6554 is for completing the sanctioned works and Rupees 11896 for minor and unforeseen works. A list of minor works below Rupees 2500 is appended to the Budget.— The difference viz. Rupees 31931 Comprises the provision for new works as classified below.— Part III. A and B.

I	For new roads	16765
II.	For miscellaneous Public Improvements	6500
III.	For moosafirkanas	8666
	Total	31931

I New Roads.

9 Road from Anikab to join the Cossoor main Road. This line for which a provision of Rupees 2500 was made for the year 1874-75

observed in the Bangalore District Fund Minutes, it has been placed fifth in the order of importance assigned to the several projects. A sum of Rupees 2000 has however been entered for 1875-76 in the event of funds becoming available.

10. Road from Chintamany to Bagepally

The full amount of estimate has been allotted for the year. The plan and estimate have already been submitted and materials are being collected under the authority of the Chief Commissioner Conveyed in your No. 1831 of 12 August 1874

11. Constructing bridges on the Nowvinkere tank Cudieson Yedigoor Tipsoor Road. — The estimate and plan are now being revised as requested in your letter No. 2768 of 1st December last. A provision of Rupees 4000 is made in the Budget for substituting stone Cause-ways instead of bridges. The plan and estimate will be forwarded

shortly.—

12. Road from Seera to Amrapur.—

The project has been sanctioned and the provision of Rupees 5000 has been made in the Budget in which the Cost of bridges has not been included.— In the P.W. Budget I find a sum of Rupees 7000 has been provided for this road and this is stated to be debitable to District Funds. Instructions are solicited as to the entry of this amount in the District Funds Budget.—

II Miscellaneous P.I.

13. Opening out a small dispensary at Closepet Bangalore District as stated in the Minutes of the Bangalore District Funds Budget, it is proposed to enter a small provision amounting to Rupees 500 for Constructing a building which will suit the purpose of a Dispensary at Closepet and moiety of the Cost of which has to be Contributed by

of a Dispensary at Closepet I
think imperatively demanded
from the serious Epidemic of
fever which prevails on that and
the adjoining Taluks for many
months in the year. The sum
of Rupees 500 proposed seems
wholly inadequate even if the in-
habitants of Closepet subscribe
the moiety but the attenuated Con-
dition of the Local Fund Budget
of this District does not admit
of more liberal proposals. —

14. Dispensary at Chikaballapur.

The present building at Chikka
ballapur is reported by the
Deputy Commissioner to be private
property. It is very inconveniently
situated and as the institution
is gaining much popularity the
Deputy Commissioner recommends
the erection of a small building
in a suitable locality at a
moderate cost. The plan and
estimate for this project are

herewith submitted.—

15. The Deputy Commissioner of Sumtur has proposed to Construct a Dispensary at Koonghub the place being unhealthy. The estimate and plan will be forwarded shortly. A provision of Rupees 3000 has been approximately made by the Deputy Commissioner.—

16. Under the authority of the Chief Commissioner Conveyed in your No. 161 of 18th August last a sum of Rupees 1500 or Rupees 500 for each District has been provided for in the Budget for planting and maintaining the road avenues.—

III Moosafurkhanas.—

17. Three new Moosafurkhanas 1 at Royalpa have been proposed to be Erected in 1 at Kootigen the localities marginally noted. 1 at Nillore That at Royalpad in the Kolar District is Considered by the Deputy Commissioner to be very essential. Vide Copy of his letter attached. From Dy Commissioner Kolar D. No. 2 dated 24-12-7

The plans and estimate received with your No. 2004 of 9 September

18. The other two buildings are in the Tumkur District and have been provisionally sanctioned by the Chief Commissioner. The plan and estimate were submitted with my No. 412 of 27th February 1875.—

Part III. A and B.

19. The outlay estimated under these heads is Rupees 67,639 of which a sum of Rupees 65,639 is for the special and ordinary maintenance repairs of the Existing roads and Rupees 2000 for the repairs of 3rd Class Traveller's Bungalows.—

20. The maintenance allowance for the several roads in the Bangalore and Tumkur Districts is the same as given in the previous year. In the Kolar District the mileage rates for several roads have been considerably raised as the present rates are found to be insufficient to keep the roads in good order especially after the damage done

floods. There is a Consequent-
increase in this item of Rupees
4 2 35. -

21. In the Kolar District
also four new roads have been
entered in the list to Cost Rupees
4 0 30. These roads are reported
to be very necessary to open out the
Country especially towards the
frontier. The ryots have done
a good deal of work to them and
have also planted avenues. -

22. The Extra Charges under the Part IV. A
head Establishment Consist of one
assistant Surveyor to the Tumkur
District and 12 Lascars for the
Surveyors of 3 Districts at an
aggregate Cost of Rupees 1476.
The entertainment of this addi-
tional Establishment has been
sanctioned by the Chief Comm.r
as Conveyed in your Letters as No. 461 dated
per margin. - 11 March 74
No. 680/9. -
January 1875.

B.

This head Consists of 19 Third Class Bungalow Keepers, 3 Clerks for Compiling the returns of the Vital Statistics and the 2/3rds of 1 third of the up keep of dispensaries at Kolar, Chikkaballapur and Closepet

Pending sanction to the increase of the pay of water man in the Kolar Hospital as recommended in my Letter No. 444 of 19th March 1875, provision has been made for the same and an increased is Consequently shewn under this head.—

24. The great delay that has occurred in the submission of these estimates calls for explanation.— On a reference made by the Deputy Commissioner Bangalore District, in January last the question was submitted whether the Budget Estimate should be prepared in accordance with the proposals contained in the District Fund Committees' Proceedings

of 5th November 1874.— The reference was made on the assumption that these proceedings had been forwarded for orders, but in expectation of similar proceedings being submitted from the Kolar and Tumkur Districts, those from the Bangalore District were retained in this office. On the receipt of the Chief Commissioner's proceedings No. 9169 / 1993 of 17th March last Communicating general instructions on the preparation of the Budget, the Deputy Commissioner was directed to frame his Budget in accordance with the old forms.— The delay has arisen wholly from this cause.—

Reg. No. 1756
8-4-75

No 1969
23-4-75

I have the honor to be
Sir
Your most obedient Servant
Respectfully
The Commissioner

Proceedings of a Meeting of the Committee for the Local Funds of the Bangalore District held at Bangalore on the 5th November 1874.

Present.

Major J. G. Clarke President
Captain H. M. Magrath asst. Commr. at Dist. Hd. Qrs.
Captain E. S. Ludlow asst. Commr. in Charge of Closepet S.D.
Captain Rowen R.E. Executive Engineer Bundy Proy Dist.
A. R. Lakshmipathy Mudliar Esquire
M. S. Soobramaniya
The Amildar of Bangalore Taluk.

The President lays the following statements before the Committee.

1 Statement shewing the estimated income to be derived from Local cesses for the District Funds of the District

2 9 statements of Estimated Expenditure required for ensuing year in each Taluk of the District under the several heads of Original, "Repairs," Establishment and Tools and Plant

3. a statement shewing the present and proposed establishment for District Funds

4. a statement shewing a comparison of estimated receipts and Expenditure for 1875-76

It will be observed from statement No 1 that the estimated receipts from the Cess on Land

and Local Revenue after deducting $\frac{6}{25}$ths for
Provincial purposes, amount for the whole District
to Rs: 23443 and if some small additional
sum of income be added, Rs: 25527. The cess
collections from Arbkarry and Sagar amount
to a further sum of Rs: 25,212; but these are
credited to the Local Funds General, at the disposal
of the Chief Commissioner.

The Taluk estimates of proposed expenditure
are being revised in this office, so that all projects
not appearing to be taken up at present have been
struck out, plus the charges for establishment
and Tools and Plant, amount to Rs: 37610; being
Rs: -2003 in excess of the estimated receipts as shewn
above. The particulars of the estimated expenditure
for the ordinary road repairs and establishment &c
as submitted, amount to Rs: 24,738 leaving
a balance of Rs: 789 only, as there are no projects in hand to which the District Fund committee can advance, pledged to carry out, such as Provincial repairs to the Hankanhally road. Repairs

Repairs & upkeep of existing roads	16,622
Establishment of 3 Class Overseers	794
Proposed establishment for Dist. Fund	6117
Tools and Plant - - -	1405
Total Rs:	24738

Construction of roads in connection with certain Tank projects of the Irrigation Department, the condition of the District Funds is such that it will be absolutely necessary to ask for aid from the Local Funds Govt. among the project of a more important & pressing nature which are submitted to the Committee are the following:

Estimate

1 New road from Anikal to junction with Bangalore - Cossoor road. project prepared & submitted for sanction -

2. Constructing a 3rd Class Travellers Bungalow at Nagadi ——— Rs. 3710

3. Special repair to Bangalore Kankanhalli road in progress — Rs. 4000

4. Reconstructing bridges on above road destroyed by recent floods. Estimate 5000

5. Project of road to open up the district South of Kankanhalli Taluk.

6 assignment to Irrigation Department from District Funds in Connection with following Tank works. Harlamallige Bridge Rs. 1233

Timmanakonte Tank - - " 720

Timmasandra - - " 295

Herrappenkere Tank " 361

Malakote Tank " 713

3322

8. Allotment to be made for planting up Road avenues and purchase of water carts &c.

9. Opening of dispensaries at Closepett and Chennapatam, and other fever stricken localities.

10. There are project also of the nature of Public improvements for the Towns of Hoscote, Nagadi Doddballapur, and Chennapatam:

2. The Committee having considered and discussed the several project above enumerated resolved that reserving the balance of Rs. 709 shewn above to be the balance available for the ensuing year after providing for the cost of establishment and current repairs of roads, application be made for an assignment to be made from Local Funds General, to enable the committee to carry out the undermentioned project which have been selected as sufficiently important and urgent to admit of no postponement; Project no 6. assignment to be made to the Irrigation department in connection with roads over tank bunds under reconstruction by that department: these sums were promised as contributions from District Funds by Mr. Ricketts in 1872.

1. Arlamallige tank Kodi Bridge Rs. 1233

3. Timmakanda Kachcheri - - - Rs. 295

4. Herrapenkere — do - - - . 361

5. Inalakote — do - - - . 713

Total Rs: 3322

Note. It is resolved however that if the work in cases no: 4 and 5 has not been taken in hand, the Executive Engineer Tank Division be informed that the Condition of the district funds will not admit of the contributions promised in these cases being paid.

Project No: 7. Constructing tunnels on Hiriyoor-Jayapura Kota road - - - - - Rs: 450

Project No: 8 allotment for planting up and maintaining Road avenues - - - Rs: 500

The work of keeping up the avenues will be required of the Villagers ordinarily. but in localities remote from villages, special measures are necessary. and in all cases constant supervision and instigation are necessary to preserve young trees from neglect. It was stated to the Committee by the Amildar of Hiriyoor that as Taluk Revenue Peons who have hitherto detailed for this work, could no longer be employed in this manner, the services of a small staff to carry out these duties as well as of a ministry to tend the

young trees, would be required for 3 years or so, at a cost of 30 Rs: per mensem. Though this estimate will doubtless admit of some reduction, it may be anticipated that the outlay required for this Taluk and others where the District Roads are numerous, will not fall short of Rs: 500.

Establishment of a dispensary for the Closepett Proyet nog Sub Division — — — — Rs: 600

The Committee deem it unnecessary to urge upon the consideration of Government the urgent need that exists for providing medical aid and relief for the inhabitants of the Closepett, Nagadi and Kankanhally Talukes. The fever prevalent in these localities is of a virulent character and it cannot be doubted that the interposition of Government in providing some remedy that will at least mitigate the effects of the malady, has been too long delayed. The Committee would therefore urge upon the consideration of the Chief Comm.r that a dresser appointed and paid for by Government, should be attached to the Assistant Commissioner of the Closepett sub Division, and should be employed in itinerating through the fever stricken parts of that sub Division. The Committee propose to

of Rs: 250 for a dispensary building at Closepet and to ask that this may be supplemented by the grant of a similar sum from Government. They propose to allot a further sum of Rs: 240 as travelling allowance for the Dresser for the year and Rs: 110 for the purchase of medicine &c. The total outlay there pre recommended under this head is Rs: 600.

Project no1 New road to connect the Taluk cutcherry of Ramnad with the Bangalore cossoor road - estimate Rs: 8053 a/s appropriation for 1875-76 Rs: 2000. This project has long been under consideration and Ramnad is the only Taluk Head Quarters in the district which is inaccessible by road. There is a track which carts can traverse in the dry weather, and during daylight.

Project No. 3 & 4. Repairs (special) to Bangalore Kankanhalli road, and reconstruction of bridges estimated Rs: 4000.

Project no3 is one that has been sanctioned on an estimate amounting to Rs: 10300, for certain special repairs to this road. the a/s appropriation for the ensuing as per this year being Rs: 4000. Project no4 is under preparation and will provide for the reconstruction of some trunch and bridges destroyed and damaged recently by the surplus water of the Gubbadi Tank.

the difficulties which exist as to the maintenance of this road, which as remarked in a recent communication made by the Deputy Commr to the Commissioner Kundy droog Division, is in a condition that calls for special & prompt attention

This road, which extends 38 miles to Kankanhalli, and is one of the main feeders for the wood supply of Bangalore was made over by the Public Works Department in 1871 in an unmetalled state, and from the large traffic of wood carts that it has to bear constantly and through all the months of the year, the mileage allowance has proved wholly insufficient to keep the road in even a decent state of repair. It must necessarily follow that the condition of the road will every year become worse, and the cost of reconstruction proportionately greater the necessity for the thorough repair and metalling of the road. to meet the very heavy traffic that will probably increase each year as the sources of wood supply in the nagar and anekal Talukh become exhausted, must be regarded as inevitable, and the question arises whether assuming that the Local Funds of the District can meet this heavy

Maj Treeway Clarke
Deputy Commissioner

case warrant the retention of this road
charge of the district funds. as already observed,
this road is almost wholly utilized in carrying wood
to meet the necessities of the metropolis of the
Province, and its original construction was obviously
designed to provide a means of access from the
Kankanhally forests. The road therefore clearly
serves wider and more important interests than
those of the district, and ought in the opinion of the
Committee, to be treated as a Provincial road. If
grounds exist however which make it inexpedient
that any change should occur in the present ar-
rangement, the Committee would strongly urge
upon the consideration of Government that the road
should be metalled if possible in the course
of the present season, and handed over to the
district Fund Committee in a thoroughly efficient
condition. If this proposal should be approved
the special repairs now in progress and which consist
merely of alterations sanctioned to improve the
former line of road, may be at once stopped, and
the whole project dealt with systematically.

The Committee consider that these projects
are not sufficiently pressing to be taken up at present

Project
205.

The projects which have been formed for carrying out improvements in several cutcherry towns must also be unavoidably postponed.

3. The Committee submit for approval, the statement No 3, accompanying, shewing the present and proposed establishment (in which has been included, the establishment chargeable to Imperial funds) and the allotment which it is proposed to make, under existing arrangements, to Imperial and District funds respectively. The proposed arrangement consists in the cost of the entire establishment (with the exception of the sums marginally noted) being shared equally between the two funds. The items of increase are restricted to the following.

District fund establishment.

Pay and allowances of 2 District Surveyors proposed to be increased from Rs: 85 to Rs: 110 per mensem.

2. Extra allowance of Rs: 20 to the naraunt Head accountant of the Deputy commissioners office, and entertainment of a new clerk and accountant on Rs: 20 per mensem.

The pay of the District Surveyors has been stationery for many years and looking to the hard work and responsibilities exacted from them, the Committee recommend that their pay be

× Establishment

Mark. Head Acct dist: office Rs: 20 per mensem
additional clerk & acctt for Dist Fund work Rs: 20 --

Rs: 15 horse allowance the rate be increased to 1 Rupee per diem or Rs: 30 per mensem. The pay and allowances are both at present below what is drawn by overseers in the P.W. Department while their duties are both laborious and responsible. Mr. Domingo's case is especially deserving of consideration. He was appointed as a District Surveyor in 1863 on Rs: 60 and 2 years later, the pay was raised to the present rate of Rs: 70. He is most painstaking and conscientious in his work, and is an accomplished draftsman.

The pay of the Maramut English and Canarese account of the Deputy Commissioner's office is now Rs: 50 per mensem. In consideration of the additional work thrown upon him, a small increase of Rs: 20- per mensem is recommended. The duties of this official looking to the expansion which has taken place since the office of the district Maramut Department was instituted, are in the opinion of the Deputy Commissioner most onerous, and are disproportioned to the amount of salary at present drawn by him. The establishment of the District Fund committee will involve separate accounts and a good deal of extra miscellaneous work, for which an additional [illegible] is essential.

4. Resolved that a sub-committee composed of the following members of the committee at Head Quarters be appointed for aiding the Deputy Commr in the execution of the administration details in connection with the District funds; the minutes to be submitted at the General meeting.

The Deputy Commissioner
The asst Commr in charge of Hd Qrs sub-Division

No. 2004/770.

The Commissioner of the
Nundidroog Division

Sir,

Adverting to the Chief Commissioner's Notification No: 110 of the 4th July 1874 promulgating Rules for the administration of Local Funds in Mysore, and to your Circular Docket No: 493 of the 4th Instant, forwarding Subsidiary Rules with appendix and Forms, I have the honor to State that lists of official and non-official members to form the District Fund Committee were submitted for approval and Sanction with my Communications as per margin (a); but no formal Sanction has as yet been received It being moreover inconvenient to Convene a meeting at this late time of the year when all the Amildars are engaged in their Jamabandy Work, and the non-official members are busy with

(a) Dockets Nos: 1226/494 and 1572/606 of the 7th September and 19th October 1874 respectively.

harvesting their crops, I have obtained the written opinions of the former, and ascertained the wishes of the latter, during my present tour, and beg therefore to submit at once the Budget estimate of this District for the year 1875. 1876. Containing the (b) marginally noted parts in the prescribed form—

2. It will be observed from part I that the total assets for the ensuing year are—estimated at Rupees 93376 inclusive of Rs. 9024 or 24 per cent of the cess assignable to "Education" of which due information has this day been given to the Director of Public Instruction enclosing a transcript of Part VIII of the Budget for his information. The details of the estimated Receipts by Talukas are furnished in Part II. The Expenditure is estimated at Rupees 54924 of which a sum of Rs. 42910 or 78 per cent on the total Expenditure has been assigned to "Public Works," Rs. 9024 or 16 per cent to "Education," Rs. 1740 or 3 per cent to "Sanitation Medical Services and Public and Charitable

(b) Part I General abstract of estimated receipts and Expenditure by Talukas.
Part II Detailed estimate of assets by Talukas.
Part III Abstract of proposed Expenditure on Public works in the whole District.
Part IV Detail of Expenditure on original works.
Part V Do: Do: on Repairs.
Part VI Detail of works on public works Establishments employed in the District.
Part VII On Tools and Plants
Part VIII Sum assigned for Educ
Part IX Details of Establishmen and Contingent Charges for Sanitation &c.
Part X Miscellaneous Expendi

Institutions" and Rupees 1250 or 3 per cent to "Miscellaneous" The details of expenditure will now be dealt with in the above order-

Part III to VII

3. The Expenditure under Public Works Consists of "Buildings" and "Communication" under "original" and "Repairs" and also "Establishment Charges" and "Tools & Plant"

(a) Original Buildings.

4. The Buildings provided for in the Budget are (1) Dharmasparkhan at Raelpad in the Shrinevaspur Taluk and (2) Dispensary at Chikballapur- The Plan and Estimate for the former work were only submitted with my Docket No: 312/130 of the 11th May 1874, and there can be no doubt as to the necessity of the work Raelpad has since become a very important place after the Construction of the road leading to Cuddapah and accommodation for travellers is very much felt- The present Dispensary at Chikballapur is held in a house given by a private individual- The building is so inconvenient and the Institution is gaining so much popularity that I think a neat substantial Building at the moderate Cost of Rupees 1500 may be Constructed during the-

the ensuing year - The Plan and Estimate for this work accompany the Budget -

5. Under "original Communications" (6) Original Communications it is proposed - First, to complete the improvement of the Kolar - Chikballapur Road via Shrinivaspur and Sidlagatta - The Estimate for this work amounting to Rs: 8799 was sanctioned by the Chief Commissioner in his Public Works Secretary's No 1012 of 21st May 1873 & the greater portion of the amount has been and is being expended during the past and present years -

Second, to complete the construction of - tunnels on a portion of the Road from Chikballapur to Goribidnoor. The - Estimate for this work was sanctioned by the Chief Commissioner in Public Works Secretary's No: 1172 of the 10th June 1874.

Third, to fix mile stones on certain Roads, the Estimate for this work also accompanying the Budget.

Fourth, to Construct tunnels on the Road from Chintamany to Bagapully - The Plan and Estimate for this work were duly submitted with my docket No: 948/390 of the 30th July 1874, and the Secretary to the Chief Commissioner Public Works Department, in Docket No: 1831 of the 22d

of the 22d August 1874 has intimated that the project will be sent to the Executive Engineer for report, but that in the meantime the collection of materials may, at once, be proceeded with - This is being done now.

Fifth to Construct tunnels on another portion of the road from Chikballapur to Gowribidnoor This is the only work for which I have been unable to submit the necessary plan and estimate owing to the illness of one of the Surveyors and to the very heavy work which the other Surveyor had up to this time. The project will however be submitted shortly for sanction.

Sixth, to widen the bund of Kottacunnigala Dodakery Registered No: 170 in the Gulbagal taluk. This work was entered in the District Fund Budget in accordance with the instructions of the Chief Commissioner, Conveyed in Irrigation Branch Under Secretary's letter No: 347/1782 of the 30th June 1874.

Repairs. (a) Buildings

6. The works entered under this head, viz: repairs to third Class Traveller's Bungalows and Musafarkhanas call for now Special Notice.

Repairs (b) Communication

7. It will be observed that the allowance for the maintenance of the different roads has been Considerable.

increased the amount Estimated for the ensuing year being Rupees 19720 against Rs: 11255 for the current year this is partly owing to four new roads as per margin having been added to the list, and partly to the rate at which the roads were hitherto maintained having been increased. The new roads are very necessary to open out the Country especially in the frontier directions and the ryots have done a great deal of work and have also planted Avenue trees. It has been found necessary to increase the present rates as they have been found insufficient to keep the roads in good order, and the damage done to them by the present heavy floods is very great.

1 Gorikhunta to Gorikhanor
2 Bagepalli to Palakalya
3 Malle to Tellem frontier
4 Betamangala to Bastar frontier.

8. Parts VI A and Part VII shewing detail of estimate for Establishment for Works and detail of estimate for tools and plant Call for no special remarks. The Charge entered in the former has, in accordance with Subsidiary Rule 9. been divided among the several taluks in proportion to the Estimated Annual receipts of each taluk.

9. The cess assignable to Education has

Form W Part VIII
Education

has been already adverted to in para 2 of this Communication and Calls for no: remarks here.

Form W Part IX

10. An Extract from part IX relating to Establishment and Contingent Charges under Sanitation, Medical Services &c: has been Submitted this day to the Deputy Surgeon General Mysore Division for his information.

Form W Part X

11. Form W Part X Contains the details of the Establishment which, I Considers to be essentially necessary for District Committees office.

12 In Conclusion I beg to apologise for the unavoidable delay in the Sub-mission of the Budget &c:

I have &c:

/Signed/ B. Krishnaiengar
Deputy Commissioner of
Kolar.

General No. 1874.75.

No. 429

Has under the circumstances to be cancelled

10/3/75

Submits copy of Proceedings of the Local Funds committee of the Bangalore District and returns the Plan & Estimate for constructing a 3rd class Travellers Bungalow at Magadi with a request that the sanction to this project may be cancelled.

No 429

Mundy Droog Division

Bangalore 9th March 1875

To

The Secretary to the Chief Comm.r

of Mysore D.P.W.

Sir,

With reference to your Docket no 496 of the 24th ultimo forwarding Plan and Estimate — amounting to Rs. 3906 for constructing a 3rd Class Travellers Bungalow at Nagadi, sanctioned, I have the honor to point out that in the Proceedings of the Local Funds Committee of the Bangalore District held on the 5th november last, a copy of which is herewith transmitted, the project for constructing a Public Bungalow at Nagadi was considered and set aside, as being of considerably minor importance to several other project which are enumerated and discussed in Paras 1 & 2 of those Proceedings. I will be further observed, that the financial condition of the district Local Fund Budget will not admit of the outlay now sanctioned for the Bungalow, after providing for the establishment and maintenance allowance of the existing roads.

2. In returning the Plan and Estimate under reference, I would therefore solicit that the sanction to this project may be cancelled

I have the honor to be
Sir
Your most obedient servant

Asst Adjt Genl
Offg. Commissioner

No 1293

No. 5780

Deputy Accountant General's Office
Bangalore 18th March 1875

From

The Deputy Accountant General
of Mysore

To

The Secretary to the Chief Commissioner
Public Works Department

Sir,

I have the honor to return the District Fund Budgets of the Nagar Division for 1875/6 having examined the Statements of Estimated Assets -

2. The Budgets are in due form and it will be seen from the Statement attached to this letter that the income of the year has been estimated at nearly the figures arrived at by this Office, but there is a considerable divergence in the balance of the Shemoga District -

3. The revised Estimates for 1874/5 made by this Office are based on actuals for 10 months - I would beg attention to the general abstract at the end of the Budget shewing deficits in the Assets of 4 Taluks of the Shemoga District and 3 of Kadur -

I would

* Received with your No 619 of 19th March 1875 -

Should the actual balances of these districts on 1st April prove to be as favorable as I anticipate there will be no need for additional aid—

I have the honor to be,
Sir,
Your most Obedient Servant—

Deputy Accountant-General
of Ceylon

To

The Secretary to the Chief Commissioner
Public Works Department

Sir,

I have the honor to return the District Fund Budgets of the Nundidroog Division for the year 1875/6 received with your docket of the 9th instant No 900, and to submit a statement prepared in this Office shewing the actual receipts for 1873/4 and 1874/5 in juxta-position with the Estimates of the several District Fund Committees

In the case of Bangalore, I am to remark that the Accounts of this Office shew that the Expenditure in 1874/5 left a balance of 1 Rupees 8191 against the Fund at the close of the year, plus any charges that may have been incurred from Public Works funds in February and March

(the

Regd No 1959
23-4-75

the Controllers Accounts for which months have not yet reached this Office) The deficit should be made good from the income of the current year, but I observe that the District Committee already anticipate obtaining a grant from Local Fund Funds to the amount of Rupees 13520. to meet the requirements of 1875/6. The Committees Estimate of Rupees 18712 as 70 o/o of the half Anna Cess on Land Revenue requires reconsideration, as Actual collections under that head in 1873/4 and 1874/5 amounted to Rupees 23000 per year and there has been no diminution in the Estimates of Land Revenue for the year 1875/6.

The Kolar Committee Estimate the 76 o/o of Cess for 1875/6 at Rupees 23940, against Rs 30125 realized in 1874/5. This may also need revision.

The Tumkur Estimates appear to be unobjectionable.

I have the honor to be
Sir
Your most Obedient Servant.

Deputy Accountant General

To the Commissioners of Navy

Encl. No. 9

Sir

In returning the Plans & Estimates for Dockyards to be established under Letter No 506 of the 17th ultimo I am directed by the Rt. Hon. Chief Commissioner to observe that in the present imperfect state of information regarding the requirements of the several localities which have been selected for Establishments it would be undesirable to incur the large outlay required for permanent buildings on a Standard Plan — and, the Board would therefore confine itself entirely to proposals to erect such Temporary Structures as may in your Opinion be most suitable.

and if you are of opinion that more accommodation than can be provided in rented buildings is absolutely essential

2 — The Plans submitted from

Vendor appointing Rs 1121 arrived
in this light. do not I am to
observe officers to be measurable
but it may be possible to contract
on cheaper buildings with wood walls and
tentstuff roof as this time
note which would answer
equally well —

Yours
Allt

Sanctioned expenditure, as
per Budget 1875.76. 61,179
Proposed expenditure
for 1876.77. 51,528

The projects described in the accompanying list have been proposed by the President and considered

All, with the exception of the proposed trace from 136th mile on Bangalore-Tumgalore Road to join Arsikunchab-Hoodaghurri Road, and the road to Tumkoor-Hab from Allibunhu, carried unanimously regarding these two roads there was a difference of opinion.

Proposed by Mr. Wright and seconded by the President, that a Pundit should be sanctioned for each Taluka Town, except Nagar Taloor, on a Salary of Rs. 15 per Mensem, with an allowance of Rs. 5 for Medicines.

Carried unanimously.

Proposed by the President and seconded by Mr. Asst. Comr. Devereux Vaughan, that the following allowances to the existing establishment of the Treasury Department be sanctioned, owing to the extra work devolving on them.

	Present Salary	Proposed Increase
Treasury Clerk	50	25
Do. Accountant to keep Local Fund accounts	25	10
The Revenue Record Keeper, doing duty in the Treasury Dept. as Munshi of Local Fund Committee	20	10
		45

1 Peon ——————————— 5

Salt Increase 50

For 12 Months. ——————— 600

The increase was entered in last year's Budget, but not sanctioned; it is therefore again entered for sanction.

Carried unanimously.

Proposed by Gopala Varisthiangor, Amildor of Chemarayapatna, that 5 Peons should be sanctioned for Renumerators, and for orderlies to Ministers; i.e. 1 Peon for Minister, 1 for Amildor, and 5 Peons for Superintending Avenue Trees &c. Seconded by Veeraswamy Naidoo Amildor of Nagamungalam.

The President proposes an amendment viz, 5 Peons should be sanctioned to Kapam, Chemarayapatna, Alibaupha and Manjunahd Talaks, and that 5 Peons should be sanctioned to the remaining Talaks viz. Nagamangala, Narsipur, Hannahallipe Arkulgud and Kelur: pay Rs. 5 per Mensem.

The Amendment is carried unanimously.

Proposed by Mr. Scaldwell and seconded by Mr. Wright, that a Peon should be sanctioned for the Surveyor and Assistant

Surveyor

Surveyor, do be known, from personal
experience, the difficulties both these
officers have to contend with in obtaining
Coolies when out in the Jungles. Salary Rs 6.

Carried unanimously
Proposed by the Auditors of Attirumpa,
Nagercoil & Aramboly, that a
sum of Rs 500 be provided for the
repairs of 3d class Bungalows.

Carried unanimously
Proposed by the Auditors of Arbalgud
and Nagercoil, that a sum of Rs 500,
be provided for the repairs of Ferry
Boats.

Carried unanimously.
Proposed by the Auditor of Nagercoil,
that the maintenance for Nagercoil
Palaveede road be raised from Rs 30
to 50. per mile.

Not carried.
Proposed by the President, that the
maintenance of the Aramboly Wood-
-geerie road be raised from Rs 50. to 75
per mile.

Carried unanimously
Proposed by the President that the
maintenance for Kolur-Woodgheerie
road

should be raised from Rs 50. to 75, per mile.

Carried unanimously.

Proposed by the President, and seconded by Mr. Bouldwell, that the present rates for maintenance of all other roads should be continued.

Carried unanimously.

Proposed by the President, that sanction be obtained for the Local cess being raised, prior to the survey operations being completed, from 1/2 to 1 anna.

Carried unanimously.

Proposed by the President that Rs 3,110 be allotted for the completion of the Nanjanhalla Bridge.

Carried unanimously.

Proposed by Mr Speight, that Rs 480 should be allotted for the pay of a Draper at Sankaconcaipoor, and Rs 250 for Medicines per annum.

The Members consider that the proposition ought to be passed, but

at the same time they consider that the European and Native Coffee Planting Community can be very justly called upon to subscribe towards the cost of the Dresser and the Medicines.

President Local Committee
Mapane District

bl

Kaira District,
Deputy Commissioner's office.
Kaira 21st October 1875.

No 1113

To,

The Commissioner
of Settlement Division.

Sir,

In submitting the proceedings of the Local Fund Committee of this District, held on the 13th instant, together with the Budget for 1876-77 and Statements as per margin, I have the honor to state that there was a balance of Rupees 34,562 at the close of the year 1874-75 as entered in the statements attached to the sanctioned Budget for 1875-76 - which together with the probable receipts of the official years 1875-76 and 1876-77, Viz Rs 39,500 and 39,520 respectively, amounts to Rs 113,582:- deducting from this the expenditure sanctioned in the Budget for 1875-76 Viz Rs 61,479 there remains a balance of Rs 52,103, which should from this basis of the ensuing Budget.

The probable receipts, Viz Rs 39,520

6 Statements of Receipts according abstract as per Chief Comr's proceedings No 4526 of 24th Sept 1874. J. 366

1 Station Cr for Original Bills

1 Do for Repairs.

of the year 1876-77, are shown as below for
but it is impossible to give the particu-
-culars of the balance of Rupees 12,583, as
the same is the balance which is estimated
there will be at the close of the current year,
and which has been calculated as follows
viz - Balance on 1st April 1875 Rs. 34,662.
Receipts for 1875-76. Rupees 39,500
Total Rupees ——————— 74,062 from
which Rs 61,479 planetine d budget for 1875-76,
must be deducted leaving a balance
of Rupees 12,583.

It will be observed from para. I of
the budget memorandum, that the
expenditure on original works —, repairs,
and Sadr and Plant in each Taluka,
will be within the receipts of the respective
Talukas in which they are collected, except
in the Talukas of Aranjabad, Ahmedi
and Karvipet, in which Talukas the
expenditure exceeds the receipts, owing
to the necessary allowance of
pandy being higher than in other Talukas,
and which cannot possibly be reduced,
and as also there are some important
original works to be undertaken in
these

Native Talukhs. Therefore it is proposed to utilize the excess amount from the receipts of other Talukhs for these Talukhs-

The cost of the proposed and proposed rebabilitations, viz Rs. 11,646, and the annual recurring cost Rs. 2,650 - when deducted from the estimated balances at the close of 1875-76 - would be partially from the receipts of 1876-77.

Original works	
Constructing a Nuvaperkhana at Kallarayakoppal on the Chitaldroog road - - -	300
Do Do at Vanivilasa Sagara Bolur - - - - - -	540
Do Do at Harihalli Channa Canada - - - - -	400
Do Do at Harihar Do	600

The want of shelter at these places is much felt by travellers - Therefore provision is made in the Budget for the construction of 4 Nuvaperkhanas.

Constructing a tunnel of 8 feet wide across the South Road of the Channa Pattana Taluk. Estimate Rs. 1,720	This work is absolutely necessary to facilitate the traffic on the road, as detailed in the report of the estimate, hereunto annexed, only Rs. 1,000 is entered in the Budget for this work, the remainder can be appropriated next year.

Constructing a bridge over Yenhalla stream estimate Rupees - - - - - -	4,610

Rupees 1,500 has been allotted for this work in the current year's Budget, the balance of the estimate

Viz. Rs 3,110, is now entered in the Budget for 1876-77.- The plans and estimates were submitted with their office No: 1042 of the 6th instant.-

Construction of a road from Alagahalli to Ramanathpur estimate Rupees 3387-0-0

The road from Periapatna up to the frontier of their District, Viz: as far as Alagahalli, has already been completed by the Mysore District - the sum of Rs 1,500 is entered for opening out about 5 miles of road from Alagahalli to Ramanathpur in their District. The balance of the estimate may be appropriated next year.- The plan and estimate will be submitted as soon as they are received from the Officer in charge of the Kapan Range.

Repairs

The maintenance allowance of all the roads is entered in the Budget at the same rates as last year, with the exception of the marginally noted roads, for which it is proposed by the Committee that the rates may be raised, as it is impossible to keep the roads in good order from the present

Arey Anahal Moodagerray road from Rs 50 to 75.- Belur-Moodgerray from Rs 50 to 75

present allowance.

Maintaining 6 miles of road from Kothur to Kerodi via Iyyur on branching from Iyyalay Bisley road. Rupees 300

As the Ryots have agreed on the road, the maintenance allowance is recommended.

As in the Nanjarabad Taluk there are 10 miles of road to be maintained, it is absolutely necessary that there should be a Mudaliar in that Taluk, consequently provision has been made in the accompanying Budget for his pay.

Wm Cockburn Esqr. Collector
J. Middleton Esqr. Planter
R. Henderson Esqr. do
Srinivasa Row Ranadar
Ranga Sowda of Channarayapatna.
Kempanna Pillay Auildar of Belur
Ramanuja Iyengar Auildar of Nanjarabad.

I regret that the marginally mentioned gentlemen and Auildars were not present at the meeting. Mr. Middleton writes to state that he was busy picking his Cardamum Crop, and could not attend, while Mr. Henderson was unable to attend owing to his having to be present at a meeting in Mercara on the 15th. The Auildar of Nanjarabad was prevented by sickness, and the Auildar of Belur by pressing work from being present.

Provision has been made in the Budget for the entertainment of Pundits

at the Head Quarter of all Talukas, except Hasanpur the want of medical aid is much felt in all Talukas, and all the Amildars were strongly in favor of the proposition, which I trust will meet with sanction. As regards Manjapalli an estimate for building a dispensary has been submitted with this office No. 860 dated 28th August 1875.

Provision has been made for the pay of a Dresser, who will have to be located there in charge of the Dispensary.

If the Planting Community should wish, an Apothecary instead of a Dresser might be posted to Talekesper; but if so, I think that his pay ought to be met by subscriptions from the European and Native Planters, for whose benefit he will be stationed at Talekesper. And if sanction to this proposition is granted by the Chief Commissioner, I will place myself in correspondence with the Secretary of the Planters Association, to ascertain what amount can be raised by subscriptions.

From the proceedings it will be seen

that it was proposed that sanctions might be obtained to the Local Cess being raised from ½ to 1 anna, prior to the completion of the Survey operations: if sanctions can be obtained for this, the probable receipts of this District, after deducting 2½ per cent for collection, will be increased by Rs 26,220, and thus enable us to undertake several other works, which cannot be thought of for want of funds.

I have the honor to be,

Sir,

Your most obedient Servant

Officiating Commissioner &
and President Local Fund Committee.

Koonervaloo Pillé — Do. Belur

Lutchmon Moodr. Do. Narsipur

The

The proceedings of the Commissioner having been read over to the Committee, they proceed to discuss the points raised by the Commissioner.

The first is, the Commissioner remarks that no mention is made of the 2nd Section of the Wootekenge-Wongar Road, or the trace of the Kisli Ghat with reference to this, the Committee beg to point out that as these works have been made over to the Assistant Engineer Coorg Division to carry out, it is presumed that any expenditure beyond what has been sanctioned for the current official year, will be met from Imperial Funds.

In para III of the Commissioner's Proceedings, it is stated that a Bungalow Khana at Anathé, on the Nagamangalore Road, at an expense of Rs 300- and one on the Bettadapur-Ammathpur Road, at an outlay of Rs 1500,- have been sanctioned - with reference to the first, the Committee beg to point out that in their Proceedings under date 13th October 1875, the place selected was near Kulhulli Kopal; and regarding the second, that no such

proposition was made; the Committee therefore trust that the places selected by them, and particularised by them in their proceedings under date 13th October /76. may only be sanctioned.

With regard to standard plans for Moodaffer Khanahs, the Committee beg to state that the Executive Engineer has been written to on the subject, and he has replied ~~to state~~ that plans have been submitted to the Chief Engineer for sanction; consequently the Committee can do nothing until such are received.

With reference to para IV of Commissioner's Proceedings, stating it is also incumbent on the Committee to discuss the subject of erecting Rest Houses for coolies going to coffee estates, the Committee beg to draw the Commissioner's attention to this office docket No. 146 of 28th April 1875, forwarding copy of a letter dated 15th April 1875. from the Joint Secretaries of the Mysore Planters Association (a copy of which is forwarded for early reference), in which they state

they

they do not see the necessity of such buildings. The Committee beg to point out that there is no actual necessity for such buildings in this District; the only two places in which such might be built, are Sanivarsanté Belur Taluk and Soobrayasanté Manjerabad Taluk; but as the latter is on the borders of the Coorg Province, and would only be used by Coolies going to and from that Province, it is only equitable that that Province should at least be called upon to bear one half of the cost. The Committee also beg to state that for the year 1876-77, no funds are available for this purpose.

With reference to future Proceedings under discussion, the Committee have raised the amount of repairs of 3rd Class Bungalows from Rs 500 to 700, but do not consider that any sum is required for furniture, as all the Bungalows of this class have been supplied with the necessary furniture except Veligherc Bungalow, for which an Estimate has already been submitted and sanctioned, & which Amount can be met from the current year's Budget.

Recording

Moodaffer Khan &c, and the Jury of Assessors, the Committee beg to point out that there are only three such buildings in this District, viz, at Chemmaryaputnum, at Dupplasapuram and at Moodegere. The repair of these buildings is met from the heading "Revenue Repairs", and therefore no special provision appears called for: And as regards these buildings have always been kept clean by Peleandies, the Committee do not recommend the entertainment of Assessors for them.

Regarding para VII of the Commissioner's Proceedings, the Committee beg to point out that in their Proceedings under date 13th October 1875, they recommended that the Revenue Record Keeper, who does duty in the Treasury Department as Moonshi of the Local Fund Committee, should receive an allowance of Rs 10 extra, and did not recommend any increase to the Goomastha, as recommended by Commissioner; the Committee therefore trust that the Commissioner will kindly enter this Amount in lieu of the increase to the Goomastha and the Committee trust that the Commissioner will

hold support the proposition for the increase to the officials, as recommended.

Regarding the question in para IX, the Committee beg to state that the Medical assistance at present in Jalukie is "Nil", and the fees paid by the natives, to people who style themselves Native Doctors, is entirely optional

With reference to paras XII, XIII & XIV of Commissioner's Proceedings, the Committee beg to append a copy of a letter received from the Assistant Commissioner of Naga Hills on the subject of nurseries and avenue trees. The Committee beg to state that they do not consider that any money allowance is necessary, as the Auditors, with their influence, will be able to have Nurseries prepared at suitable places, and Jalukie Ministers can be instructed how to prune avenue trees &c.

Nagaie

1875

President
Local Fund Committee
Nagaie D.C.

Mangalore 15th April 1895.

Captain Shaw
Deputy Commissioner
Kaspa District

Sir,

We have the honor to acknowledge the receipt of your Official Docket No. 714 dated 9th March 1895. forwarding a printed copy of the Chief Commissioner's Proceedings No. 8205/1758 sanctioning orders on the suggestion of erecting rest houses for the convenience of coolie travelling to and from coffee plantations, and requesting to be informed as to the best sites for such buildings.

The subject was duly brought before the Members of the Association at the last Meeting, and it was resolved that the subject be left in the hands of the Committee to be arranged between the Mangalore Planters and Government. As such rate of Mortality prevails from residence on Estates in Mysore, and no such conveniences are required at present for the coolies employed by the Mysore Planters, who are always

anxious

Anxious to induce coolies to come to Ceylon on Estates, where the climate and general health of the coolies have never been of such a nature as to render Government Aid. however necessary.

We have the honor

Hazaree Baugh—
Camp Dumraphur - 21st November
1875.

To

The Dy Commissioner
Hazaree District.

Sir,

I have the honor to acknowledge the receipt of your docket (Mis:) No: 768 of the 20th Instant - forwarding, for opinion, enclosures relative to the fencing and care of avenue trees, and the persons to entrust with this work. -

With regard to the cutting and lopping of avenue trees, which is the main point discussed, I do not clearly understand with what object this is to be undertaken. Road-side trees and topes being primarily for the purpose of affording shade, any reduction of foliage with its necessary check to the trees' growth, and possible worse effects from disturbance of functions, seems unnecessary. I presume it is not desired to imitate the grotesque

shapes

Shapes in which diseased trees are often trimmed in Europe, where the object sought is merely ornamental, and which is gained at the expense of a diseased vitality, -

2. There is indeed a certain correspondence between the aerial and terrestrial ramification of trees; and on this account in the case of road-side trees, a little lopping on the off-side might occasionally be undertaken, but the laws convex for the trees, and the road itself, would be to leave the former alone. Any branch in the way of travellers would naturally be cut off by the authority charged with the maintenance of the road; but the only direction necessary to give the woodman, I should imagine, would be to take off as little as possible. I do not know on what the opinion that a decaying root injuriously affects an interlaced tree one, is based. The contrary effect is observed in thinning a natural forest. - It is needless to say anything against the old idea

that

that mutilating a tree gives it a good shape and trade it badly.—

3. There are but few miles of road in this district over which I have not ridden or driven, and I should estimate that the figs (Alada, Goni, Bili-baeri, Atti, and less frequently, Pilalada and Arali) and the mangoe form one tenth of the total number of shade giving trees. The natural habit of these trees grown in the open is low and branching all that could be desired for avenue purposes without any gratuitous mutilation.—

4. With regard to the raising and planting out of avenue trees, more especially those on or near roads, I am of opinion that the work should be carried out in the most thorough manner possible under a distinct head from the local fund allotment, but gradually, sections of roads being planted up in rotation. The supervision of the Inspectors would thus be very easy, and the real progress of the work readily ascertainable. A nursery for the supply of the plants required would be formed

and

and some but large-headed plants
but not, in fact three or four feet only.
Fig cuttings would not be but not till
they had been rooted in the nursery.—
There is a certain danger in relying too
much on cuttings, the prolongation of
the life of one individual. It would
be advisable to raise a large number
of Fig seedlings in the nursery, where
the roots should have several seasons,
and the young trees not but not till
they are from 4 to 6 feet high.— I
would also suggest that the present
number of trees here will be much
increased — the trees planted at half
their present distance apart, and
in two rows. The advantages of this
plan would be, that the growth of
the trees would be more vigorous
from their sheltering one another,
they would take a better form, and
there would be more perfect shade,
casualties from wind, accidental
injury &c would be less appreciable.
I can imagine no finer avenue than

one

4

one planted in this way with the cuttings as near as possible to the edge of the road, backed by a second row of trees like the Jack with an erect habit of growth.

5. The actual labour involved in adopting this close planting of hardy nursery trees, would not, I think, be much in excess of the old plan, and in two years ought to cease altogether. A seedling, in a properly tended nursery, would make more growth in one year than in two alternately forced to a dawdling sum and, if it is fortunate, drowned in water, with its roots in a state of chronic suffocation from the gradual disintegration of its mud wall, and the formation of a hard crust out of the debris. I cannot help thinking that, in most cases, mud walls do young trees more harm than good. Their shelter is doubtless in many way good, but they have the disadvantage of stopping the access of air to the roots, by holding water over them in rainy weather, which subsiding spreads successive layers of kneaded clay, and which bakes as it grows exposures to the sun, bakes as hard

land as a macadamized road —
The avenue trees on the Thames embank-
ment below Westminster ——— bridge,
seem at first sight to grow with their
roots covered by pavement, but a grating
exists at the base of each tree, made with
the express purpose of letting air reach
the roots. I have seen large trees killed
by a portion of a railway embankment
covering their roots. I mention these
circumstances here, because the present
system of planting avenue trees entails
a great deal of labour in the construction
and up-keep of these mud walls, which,
I think, were the work concentrated and
under the care of a man on the spot,
might be saved. I should anticipate
that a thorn hedge, kept in regular
order, would be often sufficient protection
for those trees which cattle eat. Of the
figs, Alada, Gouri, and Bauri, boles could
be put out of sufficient height to be
beyond the reach of animals, and they
would probably constitute one half the
number of trees planted. Hardy ——
nursery raised seedling, in large pots
kept watered, would be out of the

reach of cattle in about four years. Mauladi or Halbaindige Nara, two amongst other recommendations as an Avenue tree that of being eaten by neither cattle, sheep or goats.

6. There is one more point, relative to the Avenue trees of this District which I would wish to bring to your notice, and that is the existence of very large numbers of plants of great age, small stature, and ruined constitution, which if they are only taken away to land further. They are kept alive by the care bestowed on them, but they have been brought to their present state by ~~—~~ intermittent and misdirected care. ~~—~~ A systematic planting up would replace these ~~trees~~ as they came under notice on the portion of road being dealt with at the time being.—

Report.

This Bungalow consists at present of a single room without any proper Bath rooms and is thus only capable of accommodating one Traveller at a time and that in an inconvenient manner. This Estimate therefore provides as per accompanying plans, for constructing a second room of same size as existing room, to the north of the same, and also for two proper bath rooms. It also provides for substituting glazed windows in lieu of the existing small battened ones. The out house accommodation being over small it is proposed to add to the Cookroom and stables as per plan, and also to construct a privy. The work to be carried out by the Amildar and should if possible be completed before the Monsoon of 1877 as the Bungalow is in urgent use by Officers of all Departments and by Coffee Planters. The Estimate has been prepared by the Executive Engineer Koppa Division.

Certified that the above sanction is not at variance with the provisions of Code, page 127 para 6.
